Customer Workshop to feature high tech gadgets

MAXWELL AIR FORCE BASE, GUNTER ANNEX, Ala. –Acquisition novices interested in ordering a hand-held personal digital assistant, or savvy E-commerce techies interested in the latest gadgets are invited to attend a customer workshop, hosted by the Standard Systems Group’s Commercial Information Technology-Product Area Directorate (CIT-PAD). The workshop will be held March 25-27 at the Embassy Suites Hotel and Montgomery Conference Center in Montgomery.

According to workshop chairman 1st Lt. Pamela Woods, the workshop guarantees to be a first class opportunity for CIT-PAD industry partners and government customers to meet, interact, discuss new technology, examine market trends, and develop requirement-based solutions. “This workshop will give our customers an opportunity to reach out and touch items they might be interested in buying.”

Vendors currently holding contracts with the CIT-PAD and lining the virtual shelves of Air Force Way (<https://afway.af.mil/>) will be present, showcasing the latest in hardware, software, and information services. Seminars highlighting everything from how to use the AFWay website, to new contracts will be featured.

Customer Workshop to feature high tech gadgets

2-2-2-2

The CIT-PAD has 25 Blanket Purchase Agreements (BPA) with multiple contractors to supply commercial hardware, software and services that run both commercial and government application software and access to 16 other contract vehicles. Leveraging U.S. Air Force volume buying power provides exceptional value and a variety of choices.

CIT-PAD BPAs are the U.S. Air Force's preferred source for IT equipment, and all DoD organizations and other federal agencies authorized to place orders using a GSA schedule are authorized to use these BPAs.

The Standard Systems Group, located at Maxwell AFB's Gunter Annex, provides and sustains combat support information systems for the Air Force and Department of Defense. The group procures leading edge information technology products used by virtually every organization on Air Force military bases worldwide.

For more information or to register for the free workshop, contact Woods at (334) 416-4074 or visit <https://web1.ssg.gunter.af.mil/afitc/workshop/>.
